

JOIN THE FEMTASTEC NETWORK

we are the female* STEM network

**We're striving for gender equality, not just for cisgender women but for all underrepresented genders. We embrace diverse backgrounds and experiences.*

EMPOWER.
CONNECT.
INSPIRE.

WHAT IS FEMTEC

Femtec is the international career-building network.

For more than 20 years, we have been connecting women* in STEM and accompanying them on their way to a successful career. Our programmes offer female STEM talents a unique opportunity to network with like-minded women, create a safe space, strengthen self-confidence, sharpen personal and professional goals and support them in asserting themselves in male-dominated professional fields.

Femtec stands for sustainable networking, confidence, working innovatively and diversifying the corporate world.

YOU CAN APPLY IF

- you study a STEM degree programme at one of the partner universities
- you are doing your master's degree and you're passionate about it
- your English is at least level B2

EMPOWER

You will be part of a unique network of STEM talents. Excellent coaches empathetically support your personal and career development. You will learn about current leadership concepts and new approaches to deal with complex challenges.

CONNECT

Femtec has supported more than 1.500 female students who have shaped their careers over the past 20 years. Many of these women now work in top positions at renowned companies, scientific institutions or technical universities and are still associated with Femtec. If you become part of the Femtec network, you can benefit from their experiences and contacts.

INSPIRE

In an innovation project you will work together with our partners from industry, research and science to develop pioneering solutions for tomorrow's challenges. Our careers are the result of the decisions we make. With individual coaching sessions we support you in deciding career-related matters that you would like to tackle.

BENEFITS

**Career workshops, coachings,
innovation workshops & field trips**

Strong network of women in STEM

**Contacts to companies, universities
and research institutes**
